

Black Isle Repair Café

Working in Partnership

Laura Donnelly: Project Officer
Transition Black Isle
Highland Community Waste Partnership

Broken stuff? Fix it at the
Black Isle Repair Café

Black Isle Repair Cafe Working in Partnership

- Group of local people interested in repairing and tackling throw away culture
- Local group involvement including the Black Isle Men's Shed, Transition Black Isle and the Highland Community Waste Partnership
- Working with Circular Communities Scotland / Share and Repair Network
- Opened up to other Black Isle organisations wanting to get involved in sharing and repairing
- Roaming across the Black Isle - different venue each month

Statistics and Feedback!

"I'm absolutely over the moon to find it's possible to repair my old push mower. I reckon it's at least 50 years old and it's given decades of service in my family. Giving it a new lease of life and using it in place of a plasticky power mower will give me great joy!"

"Richard was good at explaining what he was doing which was very helpful. Effective knife sharpening."

"Thank You. Couldn't find this service locally. Men's shed chap very helpful and friendly and informative! Showed me how to do it myself too"
