

Starter Packs Networking Forum

This is the perfect opportunity for our starter pack members to meet, engage, and exchange good practice principles with similar projects. Hear from several members who will share insights into their experiences of the current climate for starter pack projects in Scotland. Participate in a breakout session which aims to give space to address the pertinent issues affecting starter pack projects today.

Wednesday 30 October 2024, 10.00am – 12.00pm on Zoom
