## SUPPORT SCOTLAND'S CIRCULAR ECONOMY NETWORK

[www.circularcommunities.scot](http://www.circularcommunities.scot)

## Our vision is for a thriving circular economy in Scotland where local communities reap the social, environmental, and economic benefits.

As a national membership body, we work towards this vision by championing and representing the community-based circular economy sector in Scotland.

Our network is made even stronger by our Supporter Membership which includes public bodies, private enterprises, and larger national and international organisations.

Like us, our Supporter Members recognise the vital role community-based charities and social enterprises must play in Scotland's circular economy and wish to champion and elevate the sector.

Supporter Members are offered access to our wider membership network and receive their own set of unique member benefits. →
