

Circular Communities Scotland Share and Repair Network Get Reuse Right Campaign Pack 2026

Overview

We're asking MSPs to pledge to [Get Reuse Right](#) for Scotland's circular charities and social enterprises, and we need your help.

From Tuesday October 6th 2026 use the #GetReuseRight hashtag on socials to share our policy asks, campaign messaging, and to encourage your local MSPs to pledge to #GetReuseRight.

Together we can promote strong reuse policies that deliver tangible support, open new opportunities and create the right conditions for Scotland's community reuse and repair charities and social enterprises to thrive.

Campaign messaging will run during the same week as the 2026 Holyrood Repair Café and beyond.

Please note the campaign page link will not be active, and may show an error message until campaign launch.

Support and Get Involved

1. [Social media posts.](#)
Use the copy below to share on social media.

For Reuse Charities and Social Enterprises ([find your MSPs names here](#) and download our spreadsheet to find their socials via our [campaign Dropbox](#)):

We're asking our local MSPs, including [@INSERTMSPNAMEHERE](#) to pledge to #GetReuseRight for community (insert reuse/repair/sharing as appropriate) charities like us!

We want to see a future where Scotland has strong reuse policies that help us do what we do best with more support, funding and opportunities.

Circular Communities Scotland's #GetReuseRight campaign advocates for policies that will make a meaningful difference to reuse charities and social enterprises across Scotland like ours.

Encourage your local MSP to pledge today to #GetReuseRight.

For MSPs:

I'm proud to pledge to #GetReuseRight for Scotland's community reuse, sharing and repairing charities.

The circular third sector is made up of fantastic organisations that support our communities, protect the environment and strengthen the economy.

These charities and social enterprises should benefit from strong reuse policies that deliver tangible support, open new opportunities and create the right conditions for them to thrive.
